

Labs

Stat 151A: Linear Models

- Attendance at Lab 0 is required, but you'll just practice turning things in.
- [Lab 1: R introduction](#) (To download a template click [here](#))
- Lab 2: OLS simulations (To download a template click [here](#))
- Lab 3: Designing and interpreting regressors (To download a template click [here](#))
- Lab 4: Reproducing `lm` and coverage simulations (To download a template click [here](#))
- Lab 5: Bias-variance tradeoff and cross-validation (To download a template click [here](#))
